

Policy 524A Computer Network and Internet Guidelines**Dear Parent/Guardian:**

Students have access to the Internet. The Internet is an information system with great educational potential. The use of the Internet is a privilege. Students will be taught appropriate use of the Internet. It is the school's responsibility to teach students the skills to be responsible users of the Internet and adopt guidelines for student use of the Internet. School officials work to control the Internet environment to provide access to the most appropriate educational sites and materials for students and staff. To protect the due process rights of students, the guidelines below define appropriate educational and ethical uses of the Internet at School, identify individual student responsibilities, and outline the responsibilities of the school in carrying out these guidelines.

Please read over these guidelines with your child. Indicate your understanding by signing this letter and having your son or daughter also sign and return it to his/her teacher.
